

Beauty Parlour Management System

Submitted by,

Honey K Kuriakose

INMCA : S9

Roll no : 27

Guided by,

Ms. Dhilu Mariya Joseph

Abstract

- Keep a track of all the activities of a beauty parlour.
- Keep a record of relevant details like
 - I. Customer details
 - II. Employee details
 - III. Services
 - IV. Appointments
 - V. Sales details
- Customer can take appointment on particular date and time.

Existing System

- Manual
- Paper driven process
- More man power required
- Time consuming
- Records are stored in register, it may result to data redundancy and lose of data

Proposed System

- Complete process is automated
- Paperless process
- Easy and fast
- Holds information like customer details, employees details, appointments, sales details
